PROJECTS & LEADERSHIP EXPERIENCES

Movie Browsing Website   **Irvine, California**
Team Leader & Full Stack Developer   Apr 2023 - Jun 2023
- Managed AWS infrastructure for hosting and monitored key softwares such as Tomcat and mySql
- Implemented Javsypt encryption, reCAPTCHA, and HTTPS for enhanced user data protection.
- Employed PreparedStatement, connection pooling, and master-slave architecture for efficient and high-performing web applications, kept all response time under 250ms.

Webcrawler, Search Engine   **Irvine, California**
Team Leader & Full Stack Developer   Apr 2023 - Jun 2023
- Lead and organized project from start to finish, including establishing milestones, monitoring progress, ensuring collaboration between partners, maintaining communication with stakeholders.
- Programmed a web crawler from scratch, scraping the UCI network while maintaining proper politeness.
- Utilized data generated from web crawler to create a Search Engine by using inverse index and tf-idf cosine similarity ranking system to return the top matching urls for the search query.

WORK EXPERIENCES

Project Juice/Earth Bar   **San Francisco, CA**
Barista   Nov 2019 - Mar 2020
- Welcomed customers and answered questions regarding menu items and preparation methods, achieving good customer satisfaction.
- Followed operating instructions and troubleshoot breakdowns, keeping equipment operational at all stages of the day.
- Maintained store operation with a fellow barista on the weekends, while attracting over $200 of tips consistently every weekend.

Donaldina Cameron House   **San Francisco, CA**
Volunteer & Intern   Jun 2016 - Aug 2019
- Organized activities and back-up plans to ensure 10 weeks of smooth operations.
- Trained 6 new volunteers regarding program policies and duties every summer. All 6 were fully trained upon program starting date.
- Connected with a younger audience and saw a 85% return of students previously under my care.
